CRISTINA CAPINERI

Associate professor
Unisi

Cristina Capineri (UNISI scientific officer) is professor of geography at the Dipartimento Scienze Sociali, Politiche e Cognitive of the University of Siena, where she teaches human and economic geography and directs the Ladest Lab. She co-founded the Vespucci Initiative for the Advancement of Geographic Information Science, and chaired the COST Action ENERGIC on crowdsourced data and citizen science. Her research interests concern broadly transport and telecommunication networks, Giscience, volunteered geographic information and citizen science, local development and sustainable development, environmental indicators and landscape.
