

## FILIPPO CELATA

*Principal Investigator*  
**Sapienza - Metotef**

Filippo Celata (Principal Investigator) teaches economic geography, local development and spatial data analysis at the University of Roma La Sapienza. His research is about urban and regional economies and policies and, more recently, about the effects of digital platforms on cities, inequalities and sociospatial relations. He is chief editor of the *Rivista Geografica Italiana*, member of the scientific council of the *Società Geografica Italiana* and principal investigator of the project.
