

# SHORT TERM CITY

Digital platforms  
and spatial justice

## GIULIANO POLI

*Research Fellow*

**Unina**

Giuliano Poli is an architect with expertise in sustainability assessment, spatial Multi-Criteria Decision Analysis (MCDA) and GIS. Graduated in Architecture at University of Naples Federico II on 2012, holds a PhD degree in urban planning and evaluation, and thus the current Research Fellow in Environmental Assessment and Evaluation (SSD ICAR/22). He has published peer-reviewed articles in academic journals (e.g. Sustainability, Applied Science, International Journal of Agricultural and Environmental System, and proceedings in Springer books) and participated, among others, to European project Horizon 2020 – “REsource Management in Peri-urban Areas: Going Beyond Urban Metabolism” (REPAiR)(2018); International Academic Research Program (PRIN 2015) on “Metropolitan cities: territorial economic strategies, financial constraints and circular regeneration”; and European project PUSH (Public Space in European Social Housing) (2019), funded by EU HERA Joint Research Programme (JRP).
